

## Poverty in Bristol

The Campaign to End Child Poverty claim that 25% of all children in Bristol live in poverty. The same report states that in BANES the number is 12%, South Gloucestershire 11% and North Somerset 14%.

Bristol City Council has produced a Bristol Child Poverty Strategy which has identified that child poverty is not evenly distributed across the city, with Lawrence Hill having almost 2,300 children (60 per cent) in poverty, putting it in the bottom percentile of all wards nationally.
